hearing? No

Written
Testimony

I support (HMPC) getting approval for the expansion, because of being born and raised in Kaneohe. It is very important that the expansion is approved. My Father, Mother, Daughter, Aunts, Uncles, Cousin, and Family members are buried in this cemetery, I my self and my son already made arrangement to be buried at HMPC. HMPC I understand gave the Veterans Cemetery many acres, but did not need to do what they did. Now Many Veterans are buried there and their families want to be near there love ones. If HMPC did not give the land for our veterans being Punchbowl of the Pacific is about max filled where would the veterans be buried today? HMPC has proved beyond any question in my mind that there main concern is to grant Friends and Families that want to be together. Please grant HMPC the approval with plans for the expansion. The company has shown over and above doing everything that the government wants before approval is given.
